

Report to the People

Presented by the School Improvement Council (SIC)

Hagood Elementary – 2024–2025 School Year

Dear Parents, Guardians, and Community Members,

The School Improvement Council (SIC) of Hagood Elementary is pleased to share highlights from our efforts and progress during the 2024–2025 school year.

Our Mission

The SIC works collaboratively with school leadership to support academic achievement, promote family engagement, and help guide school improvement strategies.

Key Accomplishments This Year:

- **Academic Focus:** Partnered with administration to help shift from MAP to the iREADY assessment. Benchmark data was reviewed together and used to help identify areas of strength and opportunities for growth.
- **Family Engagement:** Helped coordinate successful Family Events 1 Nights (Literacy, STEM, and SC READY Test Prep and Celebration) and supported parent volunteer efforts for school events like Field Day, Read Across America Week, Fun Run, Community Carnival, and our Read to Lead Literacy Event.
- **Campus Improvement:** Supported efforts to enhance outdoor learning spaces by ordering a new bench and shade area for the PreKindergarten area.
- **Student Support:** Assisted in promoting school and special events via social media and flyers to engage student participation, including the *Read to Lead* event, where community leaders such as local firemen, principals, and other professionals visited the school to read with students.

Looking Ahead:

We are excited to continue supporting school initiatives, focusing on improving attendance, building community partnerships, and ensuring all students feel safe, supported, and empowered to grow.

We thank all parents, staff, and community partners for your continued involvement and commitment to student success. If you are interested in joining the SIC or learning more, please contact the school office.
