Davis

Purpose of the Report

This report was prepared by the McCants School Improvement Council in accordance with South Carolina law to share information on the school's progress toward meeting yearly goals and objectives, the School Improvement Council's work through the school year, and other accomplishments for the school year.

SIC GOALS

Build a safe community of learners.
Communicate regularly with stakeholders.
Actively engage students of all socio-economic levels and diverse backgrounds.
Create literacy-rich classrooms across the curriculum and embrace the Literacy Design Collaborative initiative.

Introduction

McCants Middle School's goal is to help all students develop the world class skills and life and career characteristics needed to exceed in the 21st Century. Our school's reputation of excellence and tradition span over 80 years in the Anderson community. Our goal is to raise the academic achievement of all of our students through the use of data to target specific area of focus, and literacy strategies that span across all content areas.

We continue to implement new instructional strategies to impact each student's individual learning styles and needs. McCants' teachers participate in professional learning opportunities throughout the school year. Sessions are developed and determined based on test data, observational data, student needs and the goals of our school. We continue to include research-based instructional practices, parent communication, data analysis, and technology integration to achieve this mission. Through funding provided in our district, we will continue to offer one to one technology for our students and fully integrate technology to enrich our curriculum and instructional programming.

McCants Middle School strives for excellence in the arts, athletics, and academics. We offer students the opportunity to take band, orchestra, art, chorus, and drama. We offer Gateway to Engineering courses and Computer Science classes such as coding and graphic arts that prepare students for possible STEM majors and careers in the future. Athletic opportunities at the middle school level includes football, basketball, volleyball and cheerleading. Other options for 7th and 8th grade are offered at our local high school with additional sporting activities.

McCants follows a model of high expectations and continuous improvement as we strive to be on the cutting edge of student engagement and achievement. We make every effort to provide an educational environment in which all students have the opportunity to inspire, motivate, and be "Respectful, Responsible, and Ready" for everything that is to come their way. We strive for our students to be globally prepared for 21st Century challenges, as well as to be caring people who help create a better and more peaceful world through intercultural understanding and respect.

Mission Statement

The mission of McCants Middle School is to ensure academic excellence, promote college and career readiness, and encourage students to positively impact an ever-changing world.
