A Title I school, Homeland Park Primary has established a proud tradition of providing students with a quality educational program in a caring, nurturing environment. Our faculty, administration, and staff work in concert to foster each student's academic and personal growth, community spirit, and enthusiasm toward learning. Using a wide array of strategies, technologies, materials and methodologies, highly qualified teachers strive to differentiate their instruction to address the educational needs and learning styles of each student. Beginning, mid-year, and end of year assessments assess individual student growth in the areas of language arts and mathematics, guide instruction, and improve student achievement at all grade levels to close achievement gaps where they may exist. We welcome parent engagement as a way to strengthen home and school communication. Parents and teachers working together as a team is the surest way of ensuring that our students garner the most of their educational experiences.
