2021 State Testing Information

Per SCDE, districts and schools should use caution in interpretation of assessment results for this school year (2020-21) due to testing conditions as a result of the pandemic. Results should not be interpreted in the same way as results from other school years. While the administration of this test is state mandated, some families did not feel comfortable bringing their child in for testing. When participation rates are low, the summary results may not be representative of the district or school populations.
