

## Nevitt Forest CSI

Nevitt Forest Community School of Innovation is an elementary school for Kindergarten through Fifth Grade. We are located about 2 miles from downtown Anderson, South Carolina. We maintain high standards of instruction through the use of state-of-the art technology.

Students work with technology to build math knowledge and reading fluency.

Our staff works collaboratively to establish a welcoming learning environment for students,

parents, and community partners. Come by and visit or call the school for more information about individual programs of study.

## Nevitt Forest Community School of Innovation

### About Us

Nevitt Forest Community School of Innovation is a diverse neighborhood school situated within a short distance from local businesses in downtown Anderson. Nevitt Forest maintains high standards of instruction by hiring highly qualified teachers who are committed to providing effective instruction to meet the academic needs of students. The staff works collaboratively to establish a welcoming learning environment for students, parents, and community partners.

### AnMed Health Clinic

Through a partnership with AnMed Health, Nevitt Forest provides on-site health care for students in the Health Connections Clinic. The school is staffed with a full time registered nurse and the medical center provides additional support with a Nurse Practitioner. This allows the school to further support the health needs of all students thus decreasing the negative impact of health related issues on achievement and attendance.

### Positive Behavior Support

Nevitt Forest promotes a positive learning environment through the Positive Behavior Intervention and Support Program (PBIS). The school community challenges the students, parents, faculty, and staff to think and perform at high levels of achievement and exhibit positive behavior and character traits. Using the SOAR model, students are recognized for demonstrating these positive behavior expectations:

Stay safe  
On-task behavior  
Act responsibly  
Respect yourself and others

Expectations are displayed throughout the school and achievement of these behaviors are celebrated with school-wide celebrations each month.

### Variety of Programs

Students at Nevitt Forest are given many opportunities to extend their learning through after school programs such as the Running Club, Art Club, Step Team, Chorus, and the Good News Club. In an effort to encourage continuing education in technology and communication, classrooms are supplied with state-of-the-art equipment, such as Smart Boards, laptops, sets of iPads and iPods, document cameras, LCD projectors, web-based programs and more. A technology coach provides technology instruction to both teachers and students by partnering with teachers in classrooms to enhance learning and providing technology instruction to all students in both Dell and MAC computer labs.
