## School Highlights & Awards

Bethel-Hanberry Elementary is a small town school that encompasses six decades of rich history. Many children attending our school have grandparents and parents who were educated on the same site. Founded in 1949, our school originally opened as a high school. Over the years the school transitioned into both a junior high and a middle school. Finally in 1991, renovations were completed for our current elementary school. We now serve grades PreK-5 as well as a transitional kindergarten class and a developmentally delayed preschool class on the campus. This rich educational history fosters connections among all community stakeholders, including students, parents, grandparents, and local citizens. Our entire school community is focused and dedicated to the school's mission of "developing successful and enthusiastic learners."
