School Highlights & Awards

Lonnie B. Nelson has a rich 50 year history of providing a quality education for children. We continue our study of *The Leader In Me* and *The 7 Habits of Highly Effective People*, by Steven Covey.

Our staff, students, and families have embraced learning the habits as we learn to be highly effective people. Our school offers a variety of opportunities to learn leadership and find and build upon our individual strengths. Our goal is to have students learn to lead, and lead to learn.

Academy For Civic Engagement is a school-within-a-school magnet at Lonnie B. Nelson. The focus for the ACE magnet is building student leadership through government, economics and service learning. Students have the opportunity to run for an elected position, learn entrepreneurship skills, participate in Mini-Society, identify and solve problems through Project Citizen and participate in numerous service learning projects that connect curriculum to the real-world.
