Dear Parents/Guardians...

Saluda Primary School is a wonderful place to grow and learn. Our students and teachers are dedicated to our vision of becoming thinkers and leaders. This year, our faculty and staff have been involved in various professional development offerings and continue to work together to create and use assessments that are used to enhance the planning of instruction for the benefit of our students' needs. The students at Saluda Primary School are given opportunities to learn each day as they make progress toward mastering State Standards for Science and Social Studies as well as Common Core State Standards. Our school is a very special place with very special people who work hard each day to nurture students.
